No. 1—Texas Bluebonnet (*Lupinus texensis*) Plant these seeds in late summer or fall for blooms in early spring. Will grow in any good soil. Pkt. seed 10c.

No. 2—Scarlet Bugler (*Pentstemon barbatus*) Plant seed in late summer or fall for flowers in early spring. Plants attractive with large bluish glossy leaves and huge spikes of bright red flowers from spring until frost. Hardy plants in any good soil easy to transplant. Pkt. seed 10c. 12 plants \$2.25. Cut flowers. (B)

No. 3—Great Red Pentstemon (*Pentstemon murrayanus*) (B) Plant seed in late summer or fall for flowers in early spring. Hardy plants in rich semi-moist soil. Beautiful spikes of red flowers early summer until late fall. Very good cut flowers. Easy to transplant. Pkt. seed 15c. 12 plants \$2.50.

No. 4—Belladonna (*Pentstemon cobaea*) (B) Plant these seeds in late summer or fall for flowers in early spring. Attractive hardy plants in any good soil preferably sand. 12 to 18 inch spikes of pale blue flowers. Very good cut flowers. Easy to transplant. Pkt. seed 10c. 12 plants \$2.00.

No. 5—Fox Glove (*Pentstemon harvardii*) (B) Plant these seed in late summer or fall for flowers in early spring. Best in rich semi-moist soil. Many spikes of gorgeous blue flowers which make excellent cut flowers. Hardy easy to transplant. Pkt. seed 15c. 12 plants \$2.50.

No. 6—Purple Fox Glove (*Pentstemon dasyphyllus*) (B) Plant seed in late summer or fall for flowers in early spring. A very beautiful flower and long lasting cut flowers. Best in well drained soil. Pkt. seed 15c. 12 plants \$3.00.

No. 7—Pink Plains Pentstemon (*Pentstemon ambiguus*) (P) Plant seed in fall or spring. Decorative globular shaped plants 2 feet tall and having a mass of white with a touch of pink flowers from middle summer until early fall. Hardy plants in any good soil. Easy to transplant. Pkt. seed 10c. 12 plants \$2.50.

No. 8—Standing Cypress (*Gilia rubra*) (B) Plant seed in late summer or fall for flowers the following season. Tall singular with fern like foliage and having large spikes of red flowers. Easy to grow in any soil. Easy to transplant and will grow in shade or full sun. Pkt. seed 10c. 12 plants \$1.50.

No. 9—Mountain Gilia (*Gilia aggregata*) (B) Plant seed in late summer or fall for flowers in middle summer and fall. A much branched plant. Easy to grow in well drained soil. Pkt. seed 10c. 12 plants \$1.50.

No. 10—Blue Gilia (*Gilia incisia*) (B) Plant seed in late summer or fall for flowers in early spring. Low growing plants covered in the spring with pale blue flowers. Plants hardy in any good soil. Pkt. seed 15c.

No. 11—Blue Gentian (*Eustoma russellianum*) (B) Plant seed in late summer or fall for flowers the first season. Where there is an abundance of moisture few plants will produce the beauty this plant will. Often the plant has 100 blue bell shaped flowers 3 inches in diameter. Cut flowers will stay fresh for 10 days or more and the buds will continue to bloom after cut. Will stand cold to 15 below zero will grow in shade or sun. Easy to transplant. Pkts. seed 15c. 12 plants \$2.00. Write for prices on 100 or more.

No. 12—Fire Wheel (*Gaillardia pulchella*) (A) Plant seed in late summer or fall for flowers the next spring. These plants do best in sandy soil but will grow in any good soil. Flowers 2 to 3 inches across, scalloped orange to bright red. Easy to transplant. Excellent cut flowers. Pkt. seed 10c. 12 plants \$2.25.

No. 13—Cone Flower (*Rudbeckia grandiflora*) (A) Mixed colors Red, Orange, Black, Bronze and Yellow. Best in rich semi-moist soil. Pkt. seed 15c.

No. 14—Purple Flowered Nightshade (*Solanum torreyi*) (P) Plant these seed in warm weather. Hardy plants in any soil having blue star shaped flowers. A very good plant for parks and roadsides. Blooms from spring until frost. Pkt. seed 10c.

No. 15—Cardinal Flower (*Lobelia cardinalis*) (P) Plant these seed in late summer or fall for flowers in spring. This plant does best where there is moisture and shade. Dark red flowers from spring until frost. Very good cut flowers. Pkt. seed 15c. 12 excellent plants \$2.25.

No. 16—Larkspur (*Delphinium carolinianum*) (P) Plant these seed in late summer or fall for flowers in early spring. Attractive pale blue flowers. Grows in rich moist soil. Pkt. seed 10c.

No. 17—Indian Paint Brush (*Castilleja*) (P) Mixed colors Red, Yellow, Salmon and Red. These plants do best in rich semi-moist soil. Easy to transplant. Pkt. seed 15c.

No. 18—Blue Sailor (*Cirsium austrinum*) (A) Purple plume like fragrant flowers in early summer. Very good cut flowers. Best in rich moist soil. Pkt. seed 10c.

No. 19—Dwarf Sunflower (*Helianthus debilis*) (A) Maximum height 3 feet with 15 to 30 large sunflowers on long stems. Very good for parks and roadsides. Pkt. seed 10c.

No. 20—Sweet Sultan (*Centaurea austrinum*) (A) An old favorite and easy to grow. Plant the seed in early spring. Hardy in any soil. Large white and purple flowers and very fragrant. Very good cut flowers. Pkt. seed 10c.

No. 21—Blue Verbena (*Verbena bipinnatifida*) (A) Plant seed in late summer or fall for an abundance of flowers in early spring. Blooms throughout the summer. Best plants are in rich semi-moist soil. Not affected by cold. Easy to transplant. A very good border plant. Pkt. seed 15c. 12 plants \$2.50.

No. 22—Copper Colored Flax (*Linum sanctum*) (A) Plant seed in late summer or fall for flowers in early spring. The plants thrive in rich semi-moist soil and produces hundreds of copper colored flowers an inch or more in diameter. Make excellent and showy border plants. Pkt. seed 15c. 12 plants \$2.50.

No. 23—Blue Flowered Flax (*Linum lewisii*) (A) Plant these seed in late summer or fall for flowers in spring. Beautiful pale blue star shaped flowers about an inch and one half in diameter. Best in rich semi-moist soil. Pkt. seed 15c. 12 plants \$3.00.

No. 24—Blackeyed Susan (*Berlandier lyrata*) (A) Plant seed in early fall for flowers in early spring. Hardy plants producing attractive fragrant yellow flowers with black centers. Best in rich semi-moist soil. Pkt. seed 10c. 12 plants \$2.50.

No. 25—Thalesperma ambiguum (A) Plant seed in late summer or fall for flowers in early summer. Flowers beautiful rich yellow 2 inches in diameter with brown centers. Slender almost leafless plants. Best in rich semi-moist soil. Excellent cut flowers. Pkt. seed 15c.

No. 26—Eringo (*Eryngium leavenworthii*) (A) Plant these seed in late summer or fall in any good soil. Plants do best in rich moist soil. In the late summer these plants produce large purple bracts and are very decorative. Beautiful and long lasting cut flowers. Pkt. seed 10c.

No. 27—Yellow Flowered Yarrow (*Achillea millefolium*) (A) Plant seed in late summer or fall for flowers in early spring. Hardy plants in any soil. Large cluster of flat headed flowers and are very fragrant. Pkt. seed 10c.

No. 28—Cassia (*Cassia roemeriana*) (P) Plant these seed in early spring in any good soil. Very showy bright orange colored flowers from early summer until fall. Easy to grow, a very good border plant. Pkt. seed 10c.

No. 29—Velvet Senna (*Cassia lindheimeri*) (P) Plant these seed in early spring in any good soil. Numerous yellow flowers in late summer until fall. A good plant for the background. Pkt. seed 10c. 12 plants \$4.00.

No. 30—Encelia scaposa (P) Plant seed in late summer or fall for flowers the first season. Grows best in ordinary well drained soil having large yellow flowers 2½ inches across and on stems 12 to 18 inches long. Pkt. seed 15c. 12 plants \$2.00.

No. 31—Clematis (*Clematis filifera*) (P) Plant seed in early spring in rich semi-moist soil. An attractive evergreen vine having numerous dark purple bell shaped flowers throughout the summer. This plant will grow in shade or full sun. Pkt. seed 15c. Plants 50c each.

No. 32—Prairie Violet (*Quincula lobata*) (A) Plant these seed late summer or fall in any good soil. Best in rich semi-moist soil. If you like violets and don't have the soil and moisture this is the plant you want. This plant is covered with violet like flowers early spring until mid summer. Pkt. seed 15c.

No. 33—White Stock (*Dithyrea wislizeni*) (A) Plant seed in late summer or fall for early flowers. Hardy plants in any soil easy to transplant. Pkt. seed 10c. 12 plants \$1.50.

No. 34—Paper daisy (*Baileya multiradata*) (P) Plant seed in late summer or fall for flowers in early spring. Will grow in any good soil, best in rich semi-moist. Gray foliage with numerous large orange colored double flowers. Excellent long lasting flowers. Blooms from early spring until frost. Pkt. seed 15c. Plants if available \$2.50 per dozen.

No. 35—Statice (*Limonium brasiliense*) (P) Plant seed in spring in wet alkali soil. Large blue lace like flowers in late spring. Pkt. seed 10c. 12 plants \$2.00.

No. 36—Thelesperma trifidum (A) Plant the seed in late summer until spring in rich semi-moist soil. Slender stem plants almost leafless having beautiful yellow flowers with brown centers. Very showy plants. Pkt. seed 10c.

No. 37—Blazing Star (*Liatris punctata*) (P) Plant seed in spring in any good soil or rich semi-moist. One of the best and showy plants in the late summer and fall. 1 to 2 foot spikes of lavender feathery flowers. Hardy easy to transplant. Pkt. seed 10c. Large bulbs 25c each.

No. 38—Solanum (*Solanum citrullifolium*) Plant seed in spring in any good soil. The plant is very prickly and the blue star shaped flowers are very fragrant attracting bees, butterflies and humming birds. Pkt. seed 10c.

No. 39—Yellow Poppy (*Argemone mexicana*) (A) Plant seed in late summer or fall for early flowers. Flowers 2 to 3 inches across dark yellow. Best in rich moist soil. Plants prickly. Very good for parks and roadsides. Pkt. seed 10c.

No. 40—White Poppy (*Argemone alba*) Same as above except white flowers. Pkt. seed 10c.

No. 41—Pink Poppy (*Argemone sanguinea*) (A) Same as above pink flowers. Pkt. 10c.

No. 42—Scrambled Eggs (*Corydalis aurea*) (A) Small plant with fern like foliage and having spikes of copper colored flowers. One of the first plants to bloom in the spring. Pkt. seed 10c. 12 plants \$1.50.

No. 43—Indian Mint (*Monarda*) Mixed varieties: white, red and lavender. These plants do best in rich semi-moist. Pkt. seed 15c. (A)

No. 44—Dogbane (*Macrosiphonia, macrosiphon*) Plant seed in fall or early spring. Will grow in any good soil producing large white flowers 2 to 3 inches in diameter and are very fragrant. Very good cut flowers. Pkt. seed 15c. 12 plants \$3.00.

No. 45—Abronia (*Tripterocalyx cyclopterus*) (A) Plant these seed in early spring in any good soil or sand. Large plants with large bluish colored leaves. Flowers pink followed by attractive star shaped cream colored seed pods that decorate the plant. Pkt. seed 10c.

No. 46—Ranunculus marcranthus (P) Plant these seed in late summer or fall for flowers in early spring. The plants do best in rich semi-moist soil. Hardy plants producing beautiful large dark yellow flowers 3 inches across on long stems. Border plants. Very good cut flowers. Pkt. seed 15c. 12 plants \$2.50.

No. 47—Erect Evening Primrose (*Oenothera biennis*) (A) Plant seed in spring in any good mellow soil. This unusual plant about 3 feet tall has large yellow flowers along the stems of the plant. Hardy plants. Pkt. seed 10c.

No. 48—Tansy Aster (*Aster tanacetifolius*) (P) Plant these seed in fall or early spring. These hardy plants will grow in any good soil and be a mass of blooms from early spring until frost. Flowers purple with yellow centers 2 to 3 inches across. Very good lasting cut flowers. Pkt. seed 10c.

No. 49—Blue Salvia (*Salvia farinacea*) (P) Plant these seed in spring. These plants do best in semi-moist well drained soil. A sage plant with gray foliage having many spikes of delicate blue flowers. Pkt. seed 15c. Plants 50c each.

No. 50—Streplanthus carinaus. Plant these seed in fall in well drained soil. Plants hardy with dark spikes of flowers in early spring. Pkt. seed 10c.

No. 51—Blue Eyed Grass (*Sisyrinchium*) Plant seed in fall or spring in any good soil. A very good rock garden plant. Plant leafless with pale blue flowers. Pkt. seed 15c.

No. 52—Pink Daisy (*Othake hookerania*) (A) Plant these seed in early spring in any good soil. Showy pink flowers 2½ inches across in mid summer until early fall. A very good border plant. Pkt. seed 15c.

No. 53—Mallow (*Sphaeraea subhatata*) (A) Plant these seed in fall or early spring for flowers the first season. Best in rich semi-moist soil producing hundreds of lavender flowers about 1 inch across from spring until late summer. Pkt. seed 10c.

No. 54—Salmon Mallow (*Sphaeracea haustalata*) (A) Plant seed in late summer or fall for flowers the first season. Best in rich semi-moist soil producing a mass of rich salmon colored flowers until late summer. Pkt. seed 10c.

No. 55—Wallflower (*Cheirinia asperimaria*) (A) Plant these seed in late summer or fall for flowers in early spring. Will grow in any good soil producing large round clusters of yellow flowers that are very fragrant. Pkt. seed 10c. 12 plants \$2.00.

No. 56—Abronia villosa (A) Plant these seed in late summer or fall for flowers in early spring. Grow best in sandy soil. Flowers large clusters pink. Pkt. seed 10c.

No. 57—Blue Curls (*Phacelia congesta*) (A) Plant early for flowers in spring. Best in rich semi-moist soil producing curls of blue flowers. Pkt. seed 10c.

No. 58—Dwarf Sunflowers (*Helianthus debilis*) (A) Plant these seed in early spring. These plants do best in sand. Plants grow about 3 feet tall and produce large sunflowers 3 inches across on very long stems. Pkt. seed 10c.

No. 59—Climbing Snapdragon (*Maurandya antirrhiniflora*) (P) Plant these seed in early spring. A small vine having pale blue snapdragon like flowers throughout the summer. Pkt. seed 10c.

No. 60—Antelope Horns (*Asclepiodora decumbens*) (A) Plant these seed in early spring for flowers in early summer. A very good plant for Rock Gardens. Pkt. seed 10c.

No. 61—Prairie Zinnia (*Zinnia grandiflora*) (P) Plant seed in early spring in any good soil. For a border plant this plant is unexcelled. These 6 inch plant is a round ball of golden flowers from early spring until late summer. Hardy in any good soil. Plants 25 each. Pkt. seed 15c.

No. 62—Butterfly Daisy (*Amblyolepis setigera*) (A) Plant these seed in late summer or fall for flowers in early spring. For best plants plant in rich semi-moist soil. Flowers yellow 3 inches across and very fragrant attracting butterflies, bees and humming birds. Pkt. seed 10c.

No. 63—Buffalow Clover (*Astragalus wootni*) (A) Large plants producing small white flowers followed with brilliantly colored seed pods resembling bird eggs. Will grow in any good soil. Interesting plants for rock gards and etc. Pkt. seed 10c.

No. 64—White Helitrope (*Heliotropium tenellum*) (A) Plant these seed in early spring in any good soil. There is profusion of beautiful white blooms during July and August. Flowers about an inch across and very fragrant. Pkt. seed 10c.

No. 65—Balsam (*Iberville lindheimeri*) (P) Plant seed in early spring in any good soil. These vines thrive in shade or full sun and produce numerous colors of small apples in late summer and fall. Attractive plants for trellises and rock gardens. Pkt. seed 15c.

No. 66—Saw Tooth Daisy (*Grindelia squarrosa*) (A) Plant seed in spring in any good soil. Tall plants with scalloped leaves and having large double flowers along the stem. Attractive late blooming plants. Pkt. seed 10c.

YUCCAS and AGAVES

The following varieties of Yuccas and Agaves will grow in any good soil best in rich semi-moist. Can stand cold to 15 below zero. They are easy to transplant at any age or time of year. They are easy to grow from seed but grow very slow.

No. 67—Red Flowering Yucca (*Hesperaloe parviflora*) 1 year old plants only 50c each. Pkt. seed 10c.

No. 68—Spanish Bayonet (*Yucca torreyi*) (P) 1 foot plants 35c. Pkt. seed 10c.

No. 69—Palma (*Yucca macrocarpa*) 2 foot plants 75c. Pkt. seed 10c.

No. 70—Tree Yucca (*Yucca elata*) 1 foot plants 25c. Pkt. seed 10c.

No. 71—Nolina lindheimeri (P) 1 foot plants 25c. Pkt. seed 10c.

No. 72—Yucca louisiana 1 foot plants 25c. Pkt. seed 10c.

No. 73—Twisted Leaf Yucca (*Yucca rupicola*) 1 foot plants, 25c. Pkt. seed 10c.

No. 74—Sotol (*Dasylirion texanum*) 1 foot plants 25c. Pkt. seed 10c.

No. 75—Ocotillo (*Fouquieria splendens*) (P) 15c per foot. Pkt. seed 10c.

No. 76—Nolina texana (P) 1 foot plants 25c. Pkt. seed 10c.

No. 77—Mountain Agave (P) Agave Wislizeni 6 inch plants 25c. Pkt. seed 10c.

No. 78—Century Plant (*Agave americana*) (P) 6 inch plants 25c. Pkt. seed 10c.

No. 79—Candellia (*Euphorbia antisiphilitica*) (P) 6 inch plants 25c.

No. 80—Lechugilla (*Agave lechugilla*) (P) 6 inch plants 15c. Pkt. seed 10c.

CACTI VARIETIES

Most of these cacti varieties will stand cold to below zero. They will grow in rich well drained soil. They should not be planted in a low wet location. Any of the following varieties can be transplanted any time of the year:

No. 81—Rattail. 6 inch plants 15c. Pkt. seed 10c.

No. 82—Devels Head. Small plants 15c. Pkt. seed 10c.

No. 83—Cholla or Cane. 6 inch plants 15c. Pkt. seed 10c.

No. 84—Hedgehog. Small plants 15c. Pkt. seed 10c.

No. 85—Barrel Cactus. Small plants 25c. Pkt. seed 10c.

No. 86—Red Flowered Petaya. Small plants 15c. Pkt. seed 10c.

No. 87—Living Rock. Small plants 15c. No seed.

No. 88—Blue Flowered Petaya. Small plants 15c. Pkt. seed 10c.

No. 89—Rainbow. Small plants 15c. Large plants 25c. Pkt. seed 10c.

No. 90—Fishhook. Small plants 15c. Large plants 25c. Pkt. seed 10c.

No. 91—Corncob. Small plants 15c. Pkt. seed 10c.

No. 92—Porcupine. Small plants 15c. Pkt. seed 10c.

No. 93—Dry Whisky. Small plants 15c. Large plants 50c. No seed.

No. 94—White Night Blooming. Small plants 25c. No seed.

No. 96—Purple Leaf Pear. Small plants 15c. Pkt. seed 10c.

No. 97—Resurrection Plant. Large plants 10c each or 60c per dozen.

Scientific names will be furnished for cacti if requested.

EVERGREEN AND FLOWERING SHRUBS

No. 98—Purple Sage (*Leucophyllum texanum*) Plant these seed in warm weather preferably in small pots of caliche soil or any soil that is not too rich. These are easy and fast growing plants from seed. They should be grown in full sun. Pkt. seed 25c. (P)

No. 99—Mountain Senizo (P) (*Leucophyllum minus*) Grow in the same methods as item No. 98. This plant very beautiful for a specimen plant and for its beautiful blue blooms. You will not be disappointed in this rare plant. 1 foot plants \$5.00 each F.O.B. Pkt. seed 25c.

No. 100—Mountain Laurel (*Sophora secundiflora*) (P) Plant these seed in warm weather rich semi-moist soil. An evergreen large dark green foliage. Flowers like a cluster of grapes dark purple. A very ornamental the year round. Pkt. seed 10c.

No. 101—Buckeye (*Aesculus pavia*) (P) Plant these seed in warm weather in rich semi-moist soil. An attractive fast growing small tree producing numerous pink to red flowers along the stems before the leaves appear in the spring. Hardy easy to transplant. 3 foot plants 50c. Pkt. seed 10c.

No. 102—Redbud (*Cercis occidentalis*) (P) Plant these seed in warm weather in well drained soil. A beautiful small tree producing numerous red flowers along the stems in the early spring. Pkt. seed 15c.

No. 103—Retama (*Parkinsonia aculeata*) (P) Plant these seed in warm weather in any semi-moist soil. Ornamental small trees having long string like leaves and clusters of golden flowers. A plant for the warm climates. Small plants 50c. Pkt. seed 10c.

No. 104—Evergreen Sumac (*Rhus virens*) (P) Plant these seed in early spring in rich semi-moist soil. Foliage glossy and in fall and winter the plant has large spikes of small red berries that are very decorative. A good hedge plant or use as a specimen plant. Small plant \$1.00. Pkt. seed 15c.

No. 105—Staghorn Sumac (*Rhus lanceolata*) (P) Plant these seed in early spring. A hardy plant in rich semi-moist soil having brilliantly colored foliage in the fall, also clusters of red berries. 3 foot plants 75c. Pkt. seed 10c.

No. 106—Possum Haw-Ilex decidua (P) Plant these seed in the early spring in rich semi-moist soil. Leaves scalloped dark green, bright white flowers. In fall and winter the small tree is covered with small red apples and is very decorative. Pkt. seed 15c.

No. 107—Orchid Flowered Willow (*Chilopsis linearis*) (P) Plant these seed in early spring in any moist or semi-moist soil. This plant will grow to 6 feet or more the first season from seed. Flowers large purple trumpet shaped. This small tree has many very good uses. 3 foot plants 50c. Pkt. seed 10c.

O. F. GARRETT, Horticulturist,

Ysleta, Texas.

No. 108—Bird of Paradise (*Poinciana gilliesii*) (P) Plant these seed in warm weather in any good soil. A very fast growing plant blooming the first season from seed. Beautiful flowers of tints of yellow and orange and a touch of red. Hardy plants easy to transplant. 1 foot plants 50c. Pkt. seed 10c.

No. 109—Yellow Bells (*Tecoma Stans*) (P) Plant these seed in warm weather in any good soil. Beautiful plants covered throughout the summer and fall with large dark yellow trumpet shaped flowers. Hardy fast growing. Pkt. seed 15c. 1 foot plants 50c.

No. 110—Perennial Primrose (*Oenothera serrulata*) (P) Plant seed in spring in any good soil preferably sand. The plant is completely covered with large yellow flowers about 2 inches in diameter throughout the summer. A choice plant for the landscape. 1 foot plants \$1.00. Pkt. seed 15c.

No. 111—Creasote Bush (*Larrea mexicana*) (P) Plant the seed in spring in any dry soil. An attractive evergreen, makes a good small hedge or can be shaped in many patterns. Plant only in dry soils. 1 foot plants \$3.00 F. O. B. Pkt. seed 10c.

No. 112—Apache Plume (*Fallugia paradoxa*) (P) Plant seed in spring in semi-moist well drained soil. Flowers like wild roses white and followed by plumes which are very attractive. 1 foot plants \$2.00. Pkt. seed 15c.

No. 113—Sacred Mustard (*Nicotina glauca*) (P) Plant these seed in any good soil. This plant will grow 10 feet in one season. Leaves large blue. For warm climates. Seed Pkt. 10c.

No. 114—Evergreen Bush Honeysuckle (*Loincera sempervirens*) (P) Plant these seed in early spring in rich semi-moist soil. Beautiful plants in summer and winter. In fall and winter the plant is covered with glossy red berries and are very pretty. 1 foot plants \$1.00. Pkt. seed 15c.

No. 115—Tornillo (*Prosopis pubescens*) (P) Plant these seeds in spring in any semi-mois. A small thorny tree fern like foliage. The seed pods of this plant resembles a cluster of wood screws which make the tree interesting. Pkt. seed 10c.

No. 116—Chamiza (*Atriplex canescens*) (P) Plant seed in spring in any good soil. Foliage gray and the plant is covered with large clusters of brown seed pods which decorate the plant. An evergreen. Pkt. seed 10c.

No. 117—Arbutus texana (*Madrona Tree*) (P) Plant seed where the plants are to grow as they are very difficult to transplant. A very beautiful tree having large waxy leaves and the tree is covered with red and yellow fruits resembling oranges. Pkt. seed 15c.

No. 118—Alligator Juniper (*Juniperos pachyphoea*) (P) Plant seed in early spring in rich semi-moist soil. Blue foliage and in the fall and winter the plant is covered with gray or bluish fruits. A beautiful hardy plant. 1 foot plants \$3.00. Balled Plants F. O. B. Pkt. seed 15c.

No. 119—Pinyon (*Pinus cambroids*) (P) Plant these seed in spring in rich semi-moist soil. Beautiful compact small pines. 1 foot balled plants \$3.00 F. O. B. Pkt. seed 15c.

BULBS

No. 120—White Rain Lily (*Cooperia drummondii*) (P) Plant seed in warm weather and in semi-moist soil. Easy to grow from seed or bulbs. Flowers 2 inches across white and very fragrant. Blooms several times a year after rains. 12 bulbs \$1.00 if available. Pkt. seed 15c.

No. 121—Copper Flowered Rain Lily (*Zephranthes texanum*) (P) Plant seed in warm weather in any semi-moist soil. Easy to grow and produce large copper colored flowers after rains throughout the year. 12 bulbs \$1.00. Pkt. seed 15c.

No. 122—Spiderwort (*Tradescantia gigantea*) (P) Plant seed in spring in rich semi-moist soil. Attractive lily like plants with beautiful blue flowers. Will grow in shade or full sun. 12 plants 50c. Pkt. seed 15c.

No. 123—White Flowered Allium (*Allium helleri*) (P) Plant seeds in warm weather any good soil. A hardy rock garden plant. 12 bulbs 50c. Pkt. seed 15c.

No. 124—Schoenocaulon texanum. Plant seed in warm weather well drained soil. Grass like leaves and spikes of bluish colored flowers. Very good plants for the rock gardens. 12 plants 50c. Pkt. seed 15c.

No. 125—Yellow Flowered Allium (*Allium coryi*) (P) Plant seed in warm weather in well drained soil. A choice Allium having large clusters of yellow flowers. A very hardy plant extra good for the rock garden. 12 bulbs 75c. Pkt. seed 15c. If available.

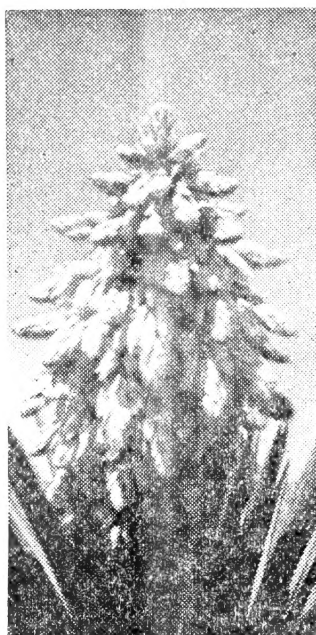

Meaning of symbols (A) Living one year. Biennial 2 or 3 years (B) and (P) Perennial living more than 2 years.

\$1.00 minimum orders accepted. When ordering plants and the amount is under \$5.00 send 25c extra for shipping and packing costs. Safe arrival guaranteed on all shipments. If your order amounts to \$5.00 or more I will ship you free postpaid 6 Biennial plants of your choice.

Cacti, Yuccas and Bulbs shipped the year round. Plant shipments begin about October 15 and ends March 15. If seeds are planted later than the recommended they will live and bloom the next year. I believe you will enjoy growing these rare plants because they are not common and they will be attractive to you and your friend gardeners. Orders are shipped the day following receipt of orders whenever possible.
